Edit

Statewide and Nationwide Networks

Statewide and nationwide network access is reciprocal: license plate data collected by your cameras and searches your agency performs will be accessible to all agencies enrolled in the same network. All searches performed across Statewide or Nationwide Networks will appear in other participating agencies' audit logs and may appear in Analytics/Insights.

Access Statewide Network — Enabled

Access Nationwide Network — Enabled

⚠ Please ensure that your laws and policies allow you to share statewide or nationally before enrolling in network access.
