> Heather, we are still working with Flock on this install. They are going to be re-applying for the permits through the city of Milwaukee in the very near future. Flock has been in communication with Mr. Washington. If you receive any info, questions from your DPW, or notifications regarding this please let me know.

> Just so you have some more info, we only (thru Flock) applied for one permit from Milwaukee. It was for a camera in the 6300blk S 13 for SB traffic. We are looking for two there. One SB one NB. One on the west side of the street and the other on the east. The NB one we applied for a permit thru the county and was denied. We'd like to apply for that NB one thru the city now. Both would be affixed to city of Milwaukee concrete street light poles.

> Hello Heather. I was given your information as someone who may be able to assist us. The Oak Creek PD is looking to install two Flock cameras in the area of 13th and College and have been running into permitting issues. This area is unique as the street is a county highway that is lit with street lights owned by the City of Milwaukee. The street obviously borders both Oak Creek and Milwaukee. We had one permit denied by the City of Milwaukee permit review citing that they will not allow other cities equipment on their light poles.
>
> The reason I am reaching out to you is to see if we could work together to get our permitting approved. This area is a high crime area for us and would really like to install the Flock cameras. Installing these cameras would not only benefit our department, but Milwaukee as well due to the sharing of information.
